

How to: Assemble your donation box

Directions:

1. Print out page (using **FIT** option) in colour. (You can glue page on cardboard).
2. Cut along **dotted** lines, including the square above "donate here". (Make sure to cut out this square before you start gluing the box together).
3. Place printed side down. Fold **up** on all solid lines except for line under "Allergy Awareness Week", fold this the opposite way.
4. Once all lines are folded, you are ready to glue the box together.
5. Glue bottom strip **A** underneath the back of "Allergy Awareness Week", right **under** the fold. (This creates a sign for the box).
6. Fold over strip **B** and glue tabs on top to hold in place.
7. Place glue on strip **C** and fold up to cover strip B and tabs..
8. You have now completed the first step in your fundraising efforts! Good luck!
